Introduction

This is the sixteenth annual report of the Welsh Records Panel (WRP) covering the occurrence of rare and scarce species in Wales in 2013.

	0-1 records	2-5 records	6-10 records	11-20 records	21-50 records	51-100 records	100+ records	Total
2013	2	11	5	12	13	38	45	126
2012	0	5	4	17	37	49	35	147
2011	0	4	9	10	30	26	72	151
2010	2	7	1	10	33	16	70	137
2009	1	4	1	19	50	8	25	108
2008	0	6	8	17	32	13	34	110
2007	2	6	7	5	10	5	3	39
2006	1	5	4	5	18	12	12	57

The table above suggests that 2013 was a little down on the previous three years but the quality of rarities were second to none. There were the first Welsh records of Pallid Harrier (well overdue) on Skomer and Western Orphean Warbler at Dale. There were a supporting cast of 2nd Welsh records for Indigo Bunting (on a bird table) on Anglesey), Blyth's Reed Warbler on Skokholm and Iberian Chiffchaff near Llanelli. Added to this, the 3rd Welsh Pied Wheatear, 4th Black-headed Wagtail, Paddyfield Warbler and Fea's Petrel, the 5th Welsh Isabelline Wheatear & Penduline Tit, 6th Citrine Wagtail & Booted Warbler, 7th Semi-palmated Sandpiper, 9th Blue-winged Teal and the 11th Siberian Stonechat. Then there were the host of other rarities including a total of 19 Glossy Ibis and at least 12 Great White Egrets.

This report follows the taxonomy, names and systematic sequence of the new BOU British List (2011) and includes all those records assessed by the WRP along with those accepted by BBRC (shown in *italics*). Descriptions of scarce species were received from the County Recorders of all Welsh Counties and occasionally directly from the observers. The report includes many digital photos and WRP welcomes the submission of any photographic evidence but this ideally should be accompanied by supporting evidence. Occasionally the Panel also receives descriptions of other species to assess from County Recorders and Editors. These are not detailed in this report. WRP would like to thank everyone who submitted records, all the photographers, the County Recorders and everyone else who has helping in the assessment process.

Scarce species (assessed by WRP) are defined as those occurring on average 5 times or fewer annually in Wales. As of Jan. 1st 2013 the full list of species which the Panel considers is as follows:

Bean Goose	American Wigeon	Green-winged Teal	Ring-necked Duck
Ferruginous Duck	Surf Scoter	White-billed Diver	Cory's Shearwater
Great Shearwater	Wilson's Petrel	Night Heron	Great White Egret
Cattle Egret	Purple Heron	White Stork	Glossy Ibis
Black Kite	Montagu's Harrier	Rough-legged Buzzard	White-tailed Eagle
Golden Eagle	Red-footed Falcon	Corncrake	Spotted Crane
Crane	Stone-Curlew	American Golden Plover	Kentish Plover
Temminck's Stint	White-rumped Sandpiper	Pectoral Sandpiper	Buff-breasted Sandpiper
Red-necked Phalarope	Ring-billed Gull	Caspian Gull	White-winged Black Tern
Alpine Swift	Bee-eater	Golden Oriole	Red-backed Shrike
Woodchat Shrike	Bearded Tit	Short-toed Lark	Shore Lark
Red-rumped Swallow	Greenish Warbler	Dusky Warbler	Radde's Warbler
Pallas's Warbler	Barred Warbler	Subalpine Warbler	Icterine Warbler
Melodious Warbler	Aquatic Warbler	Marsh Warbler	Rose-coloured Starling
Nightingale	Bluethroat	Red-breasted Flycatcher	Red-throated Pipit
Tawny Pipit	Olive-backed Pipit	Serin	Common Redpoll
Arctic Redpoll	Common Rosefinch	Corn Bunting	Girl Bunting
Ortolan Bunting	Rustic Bunting	Little Bunting	

Scarce races are considered on the same basis (ie. all those occurring on average 5 times or fewer annually). However, it is acknowledged that the status, and in some case the identification, of some races is very uncertain. The WRP welcomes well-documented submissions of races that observers consider to be scarce in Wales. Through this process we hope to establish the occurrence of these forms but submissions will probably in most cases require detailed descriptions, photographic evidence and in some cases biometrics or a specimen.

BBRC have requested submission of rare races (see Kehoe, C. 2006 Racial identification and assessment in Britain, *British Birds* 99: 619-645 for extra guidance) and the WRP will forward any claims that are considered sufficiently rare for BBRC to assess. Examples of races for which the WRP would like to receive reports are:

Black Brant Goose – <i>nigricans</i>	Iceland Gull – <i>kumlieni</i>	Common Guillemot – <i>hyperborea</i>
Razorbill – <i>torda</i>	Little Auk – <i>polaris</i>	Great Spotted Woodpecker – <i>major</i>
Grey-headed Wagtail - <i>thunbergi</i>	Siberian Chiffchaff – <i>tristis</i>	Treecreeper – <i>familiaris</i>
Coal Tit – <i>ater</i>	Jay – <i>glandarius</i>	Jackdaw – <i>monedula</i>
Redpolls – <i>islandica</i> / <i>rostrata</i>	Bullfinch – <i>pyrrhula</i>	

In the systematic list the figures following each species / race name refer to the number of accepted individuals in Wales up to 1991 [included in *Birds in Wales* (Lovegrove et al)], since 1991 but not including 2013 and finally the number this year. Where two records probably relate to the same bird then only one is added to the total, while if two records are only possibly of the same bird, then both are added into the totals. In some cases the figures suggest changes in occurrence in the last twenty years, although it should be noted that some apparent declines may be due, to some extent, to a decline in the habit of observers submitting descriptions or some apparent increases to improved identification criteria and better optics or cameras.

The names that appear after individual records are of those observers who sent in descriptions (if the finder is known then his /her name is included in italics) and are included here to show recognition of the time taken to produce a description and also the observer's commitment to the nationally recognised system of rare bird record assessment, unless there is a specific request that their name is not shown.

The Panel consists of six voting members, in 2013 they were: Reg Thorpe (Chairman) – Caernarfon, Mike Powell – Glamorgan, Steve Culley – Anglesey, Marc Hughes – Caernarfon, Richard Dobbins - Pembroke, Steve Stansfield - Bardsey and a non-voting Secretary, Jon Green - Ceredigion. The longest serving member of the Panel retires and a new member is elected annually by the Welsh County Recorders and the Council of the Welsh Ornithological Society. WRP is always on the lookout for new members, anyone who is interested should contact their County Recorder or the WRP Secretary.

Descriptions, photos, videos and any other relevant evidence of WRP species should be submitted as soon as possible after the sighting (WRP description forms are available from the Secretary / County Recorders and downloadable from the WOS Website), preferably via the County Recorder or alternatively direct to the **WRP Secretary: Jon Green, Crud yr Awel, Bowls Road, Blaenporth, Cardigan, Ceredigion. SA43 2AR. (01239 811561)**. The Panel are keen to receive any descriptions or photographs of electronic form, either on disc or by e-mail: **welshrarebirds@tiscali.co.uk**

Details of records submitted, but not found acceptable or currently pending for information are found in appendix 1.

Systematic List of Accepted Records in 2013

Green-winged Teal (10, 32, 1)

Anas carolinensis

Corhwyaden Asgell - Werdd

Breeds in North America. Males.

- 2013 Pembroke: Sprinkle Pill 12th Jan. (DJ Astins).
Marloes Mere 17th June (B. Southern).
Milton, 27th Nov. (B. Haycock).
Newgale Marsh, 28th Dec onwards (DJ Astins).
2012 Denbigh: Conwy RSPB 1st Dec. (J. Hughes).

There has been a single bird wintering in Pembroke for the last few years and some of the above records probably relate to this returning bird (interestingly two were together at Newgale later in the winter), however the June individual is presumably a new bird.

Blue-winged Teal (4, 4, 1)

Anas discors

Corhwyaden Asgell-las

Breeds North America.

- Flint: male, Inner Marsh Farm, 19th – 20th Apr (photo KJ Smith).

Ring-necked Duck (12, 26, 1)

Aythya collaris

Hwyaden Dorchog

Breeds North America, winters south to Costa Rica.

- Pembroke: immature male, at Marloes Mere since 28th Dec. 2012 until 26th Apr.
Montgomery: female, Llyn Ebyr, 30th- 31st Mar (O. Selly).

Lesser Scaup (0, 3, 2)

Aythya affinis

Hwyaden Benddu Leiaf

Breeds from C Alaska through Canada to Hudson Bay & S to Washington & South Dakota. Isolated populations E of Great Lakes. Winters along both coastlines of USA, in E from New Jersey to Mexico, W Indies, C America to N Colombia.

- E. Glamorgan: male, Cosmeston Lakes / Cardiff Bay, 25th Aug. 2012 until 20th Apr, (A. Bevan, G. Pryce, J. Wilson et al).
returning 30th Sept (G. Stamp et al per County Recorder).
Flint: 1st w male, Cophole Pool, Shotwick Fields, 31st Jan – 2nd Feb. and 4th – 8th Mar (Photo S. Skelton et al).
Gwent: male, Bryn Bach Country Park, 27th Mar – 27th Apr. (T. Chinnick et al).

Surf Scoter (22, 31, 5)

Melanitta perspicillata

Mor-hwyaden yr Ewyrn

Breeds northern North America, winters on the Atlantic coast, south to North Carolina.

- Denbigh: three males & a female, Llanddulas, north Wales coast, from 1st Aug 2012 until March.
three males + one female, north Wales coast from 22nd Oct until March 2014 (increasing to six males & a female in 2014).
Pembroke: female, Broad Haven, 22nd Dec. until 20th Mar. (DJ Astins et al).
Montgomery: male, Lake Vyrnwy, 2nd July (G. Chambers).
Meirionnydd: male, Shell Island, 17th Nov. (AG Goodwin).
Caernarfon: female, Morfa Bychan, from 15th Nov onwards (per County Recorder).
Gower: male, Rhossili, 29th Dec. (B. Stewart).

The three males have been wintering off the north Wales coast for the last four years.

The male at Lake Vyrnwy proves anything can happen, photos below.

Fea's / Zino's Petrel (0, 3, 1)

Pterodroma feae / madeira

Breeding Zino's confined to C mountains of Madeira. Fea's breeds on Bugio, Desertas, & Cape Verde Islands.)

Caernarfon: off Bardsey, 15th Sept (SD Stansfield et al).

The second record for the island, the 1st was the 1st for Wales in 1994.

Cory's Shearwater (34, 64, 2)

Calonectris diomedea

Aderyn Drycin Cory

A temperate to tropical species, nesting in colonies and rocky islands in the Canaries, Madeira and Azores and through the Mediterranean.

Pembroke: Strumble Head, 23rd June (A. Rogers).

Strumble Head, 24th Aug. (M. Hipkin, R. Jones et al).

Great White Egret (5, 44, 11+)

Ardea alba

Creyr Mawr Gwyn

Breeds Netherlands in small numbers and from Hungary eastwards to Japan and south Australia, Africa south of the Sahara also southern North, Central and South America. European population winters mostly in the north Mediterranean.

Brecon: Llangorse, from 2012 – 22nd Mar 2013 (M. Williams, VA King et al).

Dan yr Ogolf, 6th Mar. (A. Reid).

Llangorse, 5th Oct.

Llangorse, 23rd Nov. – 2014.

Brec/Radnor: Lowes, Glasbury, 10th – 20th Oct.

Carm/Gower: two on the Burry Inlet from 2011 into 2013, seen at Llanrhidian Marsh 1st Jan – 11th Apr (B. Stewart, M & J Piercey) & 29th Sept – 29th Dec (D. Jenkins-Jones), probably the same at Loughor 1st Oct and below at Penclacwydd.

Carmarthen: Penclacwydd, 7th Mar. (L. Jeffrey).

Pembroke: Marloes Mere, 6th June (B. Southern).

Over Fishguard, 30th Oct (A. Rogers).

Montgomery: Llyn Coed y Dinas, 26th Sept. – 6th Oct. (W. Evans, per County Recorder).

Ceredigion: RSPB Ynyshir, one 18th – 20th June, with two there on 21st & 22nd June (R. Jones, photos T. Kistruck, R. Thatcher).

Gwent: Sudbrook, 25th May (E. Stevens).

Peterstone, 20th Sept. (A. Plant).

This species dropped off the BBRC list of rare birds, onto the WRP list as of Jan. 1st 2006 and since then numbers have increased dramatically, with some individuals remaining in the area for several years, as in the Burry, and others perhaps come back to winter in the same places, as in the Brecon birds. Photo below left by R. Thatcher of the two at Ynyshir and right at Llyn coed y Dinas by M. Haigh.

Cattle Egret (5, 34, 1)

Bubulcus ibis

Creyr y Gwartheg

Common and widespread in S. Spain & Portugal with small expanding populations in France and Italy. Northern populations disperse outside the breeding season, mostly into Africa.

Anglesey: Llanfachraeth, 12th – 17th May (M. Ahmed), photo S. Culley.

Purple Heron (38, 20, 3)

Ardea purpurea

Creyr Porffor

Dispersive migrant, from warmer temperate to tropical zones, southern Europe.

E. Glam/Gower: Kenfig, 25th Apr – 10th July (R. Thomas, M. Hnatiuk, I. Lambert et al).

Pembroke: Penally/Ritec, Tenby, 3rd – 4th June (A. Collens).

Gwent: near Abergavenny, 19th Oct. (P. Harris).

Night Heron (32, 14, 1)

Nycticorax nycticorax

Creyr y Nos

Rare visitor to Wales from southern Europe.

Pembroke: adult, Ritac, Tenby, 25th May (A. Collens).

Black Stork (5, 5, 1)

Ciconia nigra

Ciconia Du

A vagrant.

Denbigh: Merddyn, Gwytherin, 6th – 9th May (P & R Leonard per County Recorder).

White Stork (- , 27, 7)

Ciconia ciconia

Ciconia Gwyn

Migrant in warmer Boreal to warm temperate zones, USSR, China and central Europe.

Flint: six, Bagillt, 22nd Apr

(J. Pierce).

Gwent: NWR 30th Apr (K.Thomas).

Glossy Ibis (11, 75, 19)

Plegadis falcinellus

Crymanbig Ddu

Migrant from warm temperate and tropical zones, Greece, Turkey, North Africa and the Middle East.

2013 Pembroke: at Marloes Mere, from 2012 until 20th Aug. (per County Recorder).
St. Florence, Tenby, 10th Dec. (R. Crossen).

2013 Denbigh: River Clwyd, 28th Sept – 5th Oct (R. Sandham – photo below).

2013 Anglesey: Valley & Malltraeth, 30th Sept – 10th Oct (J. Parry et al).

2013 Flint: ten, Bagillt Bank, 1st Oct. (G. Pelper).

2013 Carmarthen: five, Machynys, 4th Oct (I. Evans), then at WWT Penclacwydd 6th – 26th Oct, photo below by B. Stewart.

2013 Gwent: Goldcliff, 11th Oct. (M. Broome).

2012 E. Glam.: Sully Moors & Cosmeston, 16th – 17th Jan. (R. Francis et al)

Cosmeston & Flat Holm, 6th Feb. (JD Wilson, S. Whitfield).

Llancadle, near River Kenson, 22nd – 24th Feb (SP Hinton et al).

Pallid Harrier (0, 0, 1)

Circus macrourus

Bod Llwydwy

Breeds from Ukraine E through Russia to c. 100°E, & S to Kazakhstan & NW China. Occasionally breeds Finland. Migratory, wintering throughout much of E & C Africa, & Indian subcontinent.

Pembroke: 1st summer male, Skomer, 20th Apr – 1st May (D. Boyle, L. Yates et al).

Photos left by A. Haycock, above by L. Yates.

Montagu's Harrier (- , 13 , 1)

Circus pygargus

Bod Montagu

Rare visitor and mass migrant which formerly bred in small numbers.

Pembroke: female, Skomer 26th Apr. – 1st May (D. Boyle, L. Yates et al) then on Ramsey 1st -2nd May (G. Morgan).

Photo above left by A. Haycock and right by C. Hurford.

Corn Crane (- , 46, 3)

Crex crex

Rhegen yr Yd

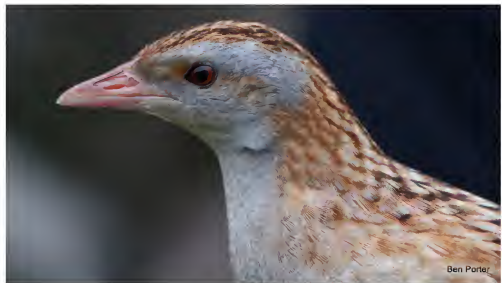

Very rare breeding bird in Britain, mainly in north & western Scotland and Ireland. Last bred in Wales in 1994.

Caernarfon: Bardsey, 24th Apr. (S. Hinde et al). Photo by B. Porter.

Pembroke: St. David's Head, 25th Apr. (M. Young-Powell).

Skomer, 8th Sept.

(E. Stubbings).

Spotted Crane (- , 34+, 2)

Porzana porzana

Rhegen Fraith

Rare visitor and occasional breeder.

Brecon: site withheld, 29th May – 1st June.

Ceredigion: Ynysir, 29th – 31st May, then 30th Aug – 5th Oct (J. Turner, R. Jones et al).

Black-winged Stilt (11, 7, 2)

Himantopus himantopus

Hirgoes

Breeds along Atlantic coast of France and locally throughout Mediterranean basin to Black Sea. To E, breeds from S Siberia and C Asia to NW China. Most European birds winter in sub-Saharan Africa and, increasingly, in SW Iberia. Asian breeders winter across S and SE Asia and S China. Other races occur in Australasia, the Americas and Hawaii.

Gwent: two (male & female), Goldcliff, NWR, 26th Apr. (R. Ruston et al).

Pectoral Sandpiper (65, 59, 5)

Calidris melanotos

Pibydd Cain

Breeds northeast Siberia and northern North America. Winters in southern South America.

Pembroke: Skokholm, 15th May (photo J. Moore).

Gwent: NWR, 8th July (T. Chinnick).

With a different individual, 30th July (T. Chinnick).

Brecon: Brechfa, 2nd – 6th Oct.

(J. Trowel et al), photo right by K. Noble.

Carmarthen: Penclacwydd, 30th Oct (W. Thomas, G. Charlton, M. Holding, photo D. Williams).

Semi-palmated Sandpiper (2, 4, 1)

Calidris pusilla

Pibydd y Tywod

Breeds on tundra of W Alaska, E across Arctic Canada to S Baffin Island & coastal Labrador. Has bred extreme NE Siberia. Migrates across Great Plains & E seaboard of USA to winter C America & coasts of tropical South America to Brazil & Peru.

Pembroke: Gann, Dale, 3rd – 5th Sept (DJ Astins, D. Grimwood, R. Dobbins et al).

Photo by R. Crossen.

Lesser Yellowlegs (9, 7, 2)

Tringa flavipes

Melyngoes Bach

Breeds northern North America. Winters USA south to southern South America.

Carmarthen: Penclacwydd WWT, 7th July – 29th Oct (L. Evans, R. Hunt, W. Thomas).

Pembroke: juv. Gann, Dale, 4th Sept. (M. Powell, photo DJ Astins per county recorder).

Photo above: Lesser Yellowlegs Penclacwydd, A. Morrison.

Long-billed Dowitcher (5, 9, 2)

Limnodromus scolopaceus

Giach Gylfin-hir

Breeds primarily in Arctic Siberia where range is expanding W to Lena River delta. North American range restricted to coastal tundra of W and N Alaska, and E to Mackenzie River. Migrates through USA to winter from coastal S USA to N Central America.

Pembroke: Gann, Dale, 1st Jan – 13th Apr (C. Hurford et al), photo below DJ Astins

Carmarthen: presumed same returning bird at Penclacwydd 28th July – 1st Aug. (W. Thomas et al).

E. Glamorgan: juv. Rhaslas Pond, near Merthyr Tydfil, 8th – 14th Oct (MT Hogan et al).

Red-necked Phalarope (37,15,1)

Phalaropus lobatus

Llydandroed Gyfgoch

2013 E. Glamorgan: Kenfig, 15th June (G. Roblin, M. Hipkin – photo right).

2012 Radnor: Llyn Heilyn, 30th Apr. – 2nd May at least (R. Pitts), 1st county record.

Bonaparte's Gull (3, 15, 1)

Chroicocephalus Philadelphia

Gwylan Bonaparte

Breeds widely across N North America from W and C Alaska through Canada to James Bay. Winters locally on ice-free rivers and lakes in N USA, and S along both coasts of USA to Mexico and Caribbean.

E. Glamorgan: Ogmore Estuary 5th Jan – 13th Mar. (PG Lansdown et al, per County Recorder) & 14th – 16th Apr (photo P. Roberts), photos below by RG Smith. presumed returning adult, Cardiff Bay / Foreshore, 12th Jan. – 5th Apr (P. Bristow, M. Powell, GN Smith per County Recorder).

Ring-billed Gull (- , - , 1)

Larus delawarensis

Gwylan Fodrwylbig

Pembroke: adult, Llys y fran Res. 8th & 15th Feb, and 1st & 21st Dec.

(DJ Astins, PK Grennard, C. Hurford, B. Southern).

Gower: 1st w, Neath, 2nd – 31st Mar. (M. Hipkin et al, photo opposite).

The Pembroke bird has been returning to the same reservoir for the last three years.

Golden Oriole (-, 17+, 2)

Oriolus oriolus

Euryn

Rare visitor from Mediterranean Europe.

2013 Anglesey: male, Cemlyn, 17th – 23rd Apr. (C. Lloyd et al), photo opposite by T. White.

2013 Caernarfon: female / 1st year, Bardsey, 23rd May (SD Stansfield et al).

2011 Pembroke: pair on Skomer, 7th May (T. Birkhead).

Red-backed Shrike (-, 68, 3)

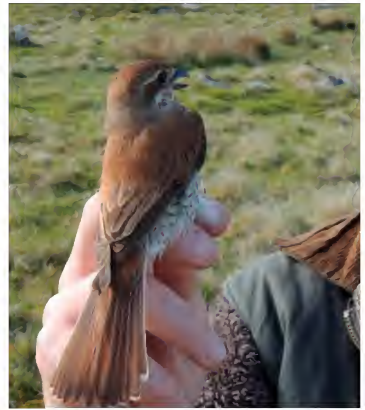

Lanius collurio

Cigydd Cefngoch

Breeds throughout most of mainland Europe.

Gower: Mewslade, 29th Sept. (AW Flannagan et al), photo below left.

Pembroke: female, Preseli Mountains, 2nd June (P. Jenks), photo below right.
Juv., Skokholm, 10th Sept. (L. Robertson).

Woodchat (67, 37, 5)

Lanius senator

Cigydd Pengoch

Breeds from France and northwest Africa east to Ukraine and southern Iran. Winters in Africa south of the Sahara.

Caernarfon: male, Aberdaron, 20th – 28th Apr. (A. Wallbank et al).

Gwent: male, Newport Wetlands, 28th May (photo D. Spittle).

Pembroke: female, St. David's Head, 21st – 30th Apr. (B. Stevens et al).

Male. Ramsey, 26th May (G. Morgan).

Gower: male, Kenfig saltmarsh, 21st – 26th May (R. Jones, photo J. Slocombe et al).

Above at Aberdaron by P. Brewster.

Above at St. David's by S. Hinton.

Above at Kenfig by J. Slocombe.

Above on Ramsey by G. Morgan.

Jackdaw (- , 2, 8)

Corvus monedula

Jac y do

Individuals showing characteristics of the Nordic form *C. m. monedula*, include:

Pembroke: Haverfordwest for the last four years (DJ Astins).

Nine Wells, 25th Nov. until the end of the year (M. Young-Powell).

Monkton, 7th Jan & 7th Dec. (C. Hurford).

Denbigh: at least 3, Llandudno Junction, 20th – 23rd Jan. (R. Hughes).

Anglesey: Pentraeth, 7th Feb (S. Culley).

Llandona, 19th Oct. (S. Culley).

The panel is not certain whether these records relate to genuine Scandinavian birds or whether the plumage characteristics they show are within normal variation for British Jackdaws. Therefore the panel requests and many photographed records as possible to try to solve this dilemma.

Bearded Tit (- , - , -)

Panurus biarmicus

Titw Barfog

Resident in the UK (mainly the south East). Eruptive. Bred in Wales in one's or twos mid 1960's – 1980. Rare since.

Individuals have bred for the last five years at the Uskmouth reed-beds of the Newport Wetland Reserve. Due to annual dispersals, descriptions are only required for records away from Gwent & E. Glamorgan. No records were received away from these areas in 2014.

Penduline Tit (1, 4, 1)

Remiz pendulinus

Titw Pendil

Widely but locally distributed throughout C & E Europe, from Denmark, Germany & Italy NE to C Sweden & Estonia. Absent from much of NW Europe but locally numerous Spain. To E, breeds from S Russia to Volga River. Largely resident or dispersive Europe. Other races, sometimes regarded as separate species, occur C Asia & from S Siberia to NE China, & winter NW Indian subcontinent, S China & S Japan.

Gwent: male, Uskmouth NWR, 7th – 9th Nov.

(R. de Borde, M. Meehan et al).

Photo opposite by G. Thoburn.

Short-toed Lark (12, 20, 1)

Calandrella brachydactyla

Ehedydd Llwyd

Rare visitor. Breeds from Iberia, southern France and NW Africa east to Manchuria.

Ceredigion: Llanon, 19th Oct. (A. Williams).

Greenish Warbler

(8, 10, 1)

Phylloscopus trochiloides

Telor Gwyrdd

A vagrant.

Pembroke:

Skokholm, 18th June (G. Eagle,

R. Brown), photo opposite.

Dusky Warbler (3, 2, 1)

Phylloscopus fuscatus

Telor Tywyll

Breeds in Siberia, Russia,

Mongolia and NE China.

Winters in Nepal, China and SE Asia.

Caernarfon: Rhostryfan, 16th & 17th Oct (RI Thorpe), trapped on 17th, photo opposite.

Of the other five records, two from Bardsey and one each from Strumble Head, Point of Air, and Porth Clais.

Western Bonelli's Warbler (6, 4, 1)

Phylloscopus bonelli

Telor Bonelli

Breeding range centred on SW Europe from Iberia to N France, S Germany, Italy, Austria, and locally in mountains of N Africa. Winters along S edge of Sahara, from Senegal and S Mauritania to N Cameroon.

Pembroke: Ramsey Island, 8th – 10th Sept. (G. Morgan et al), photos L. Lomax.

Iberian Chiffchaff (0 , 1, 1)

Phylloscopus ibericus

Siff-saff Iberiea

Breeds locally French Pyrenees & S throughout W Iberia. N African range restricted to NW Morocco & N Algeria to NW Tunisia. Wintering range poorly known.

Carmarthen: Pwll, Llanelli, 17th Apr – 8th July (IK Morgan, B. Stewart et al).

Barred Warbler (40, 45, 3)

Sylvia nisoria

Telor Rhesog

Breeds from north Italy, Germany and south Sweden eastwards to Mongolia. Winters northeast Africa south to Kenya and southern Arabia.

Anglesey: 1st w, Soldier's Point 3rd – 5th Oct. (KG Croft).

Pembroke: 1st w, Skokholm, 8th Sept (R. Brown), photo opposite.
1st w, Skomer, 31st Oct – 2nd Nov (E. Stubbings).

Western Orphean Warbler (0 , 0, 1)

Sylvia hortensis

Telor Orffeaidy Gorllewin

Breeds N Africa from Morocco to NW Libya, N through Iberian Peninsula to S France, S Switzerland & Italy. Winters sub-Saharan Africa from S Mauritania & N Senegal to Chad.

Pembroke: 1st winter, Orlandon Kilns, Dale, 10th Nov – 5th Dec. (RC. Brown, P. & R. Royle, M. Young-Powell et al).

Western Subalpine Warbler (18, 35, 6)

Sylvia cantillans

Telor Brongoch

Rare migrant from Europe.

Caernarfon: 1st summer female, Bardsey, 7th May (S. Hinde et al).

Male, Bardsey, 3rd June (S. Hinde et al).

Male, Uwchmynydd, 19th – 30th Apr. (A. Clarke).

Female, Great Orme, 8th June (M. Hughes).

Pembroke: 2nd year male, St. David's Head, 23rd – 30th Apr. (W. James, M. Young-Powell, K. Meatyard).

1st s female, Skokholm, 16th May (R. Brown).

As BOU has now split Sublapine Warbler into three species, all records from 1st Jan 2015 need to be sent to BBRC.

Subalpine Warblers, left at Skokholm by R. Brown and right at St. David's by S. Hinton.

Booted Warbler (0, 4, 2)

Iduna caligata

Telor Baccsiog

Breeds E Finland, E to C Russia & W Siberia to Yenisey valley, C & N Kazakhstan to Mongolia & W Xinjiang province, China. Winters N & peninsular India, S to Karnataka.
